

Accounts and Passwords Practice

In this course, we've learned a lot about creating accounts and passwords for websites and mobile apps. Let's see what you remember.

Which of these passwords is most secure?				
	Password			
	1MapleStreet			
	cowshelpmakecheese			
	asdfghjkl			

Which of these passwords is the most secure? Click on it now. Click on the Hint button if you need help.

That's right! The correct answer is number 3. Longer passwords make stronger passwords. It's important not to use personal information or anything too easy to guess for your password. Click Next to continue.

Which is the best option to remember your password?

That's right! Try storing your password in a safe location so it can't be accessed by others. Safe options include writing the password down in a notebook that is stored in a safe and secure location or use a secure password management mobile app or online application. Click Next to continue.
