

Using a PC Windows 11 Files and Folders

In today's example, Celine is using applications within a Windows 11 computer to learn how to manage files and folders.

Provided by AT&T Connected Learning + Public Library Association

A "file" is a package of information. "Applications" are software or tools that allow you to do things on the computer with the file. Some applications allow you to work on text documents, and others allow you to do things like edit pictures, watch videos, listen to music or access the internet.

There are several ways you can open a file. Celine can open files from the desktop,

Provided by AT&T Connected Learning + Public Library Association

from folders,

from other shortcuts on the computer,

Provided by AT&T Connected Learning + Public Library Association

or from the Start Menu.

Any time you open a file, it will open inside a related software application. In today's example, Celine is going to open a budget file in Microsoft Excel, since that was the application that was used to create it.

Would you help Celine open the School Party Budget file by double clicking on the icon?

Good job! The School Party Budget file has opened.

A folder provides a method for storing and organizing files, just like the folders you'd find on a physical desk.

When Celine double-clicks a folder, it will open the folder and show her the files inside. Would you give it a try? Double-click on the folder to open it.

Nice work! Double-clicking the folder on the desktop will open a window that shows the files inside that folder, just as opening a paper folder allows you to sort through the documents in that folder.

	Dear Parents.
	Dear Parents,
	It's been another exciting school year. Before summer begins, we would like to celebrate all that our children have accomplished this school year. I have volunteered to help Ms. Johnson plan this year's celebration.
	The party will be held Thursday, June 10th from 9-11 am in Ms. Johnson's classroom. Snacks and
	beverages will be provided thanks to the generous support of the Parent Teacher Association. We hope to see you there.
	Thanks,

Good job!

In this lesson, Celine learned how to find and open files and folders on her computer.

In the next lesson, Celine will learn how to use an application window including how to make a window bigger and smaller, how to move a window, how to scroll, and more.
